1   Introduction

The Office of the Chief Information Officer (OCIO) Employee Guide is a reference document created to educate OCIO employees on our administrative operations along with other valuable information that would be of interest to employees located in the Washington, DC, Reston, VA and Denver, Colorado areas.

1.1   About the Document

The purpose of the OCIO Employee Guide is to educate OCIO employees on the structure of the organization as well as provide detailed instructions on the various day-to-day operations. The objectives of the guide are as follows:

- ❖ Identify the OCIO Leadership and Executive Support Staff
- ❖ Identify the structure of the organization
- ❖ Briefly describe the various information technology (IT) functions and services OCIO provides and the Functional Leads
- ❖ Communicate the protocols (i.e., T&A, Official Travel, Training, Parking, etc.) of the organization and provide detailed instruction on how to meet the necessary requirements as appropriate.
- ❖ Promote an awareness of the work environment at the DOI Washington, DC and Denver, CO locations to include the services and operations (e.g. Physical Security, Onsite Amenities, Logistical and Help Desk Support Services, etc.) available to both DOI employees and the neighboring agencies.

1.2   Background

The Office of the Chief Information Officer (OCIO) provides leadership to the Department of the Interior (DOI) and its bureaus in all areas of information management and technology. The OCIO applies modern Information Technology (IT) tools, approaches, systems and products to successfully serve the Department's multiple missions. Effective and innovative use of technology and information resources enables transparency and accessibility of information and services to the public.

 The OCIO strives to implement technology innovations and efficiencies to deliver improved services across the Department at lower costs. These initiatives include reducing operating costs and energy consumption by consolidating and centralizing the IT infrastructure and compliance functions across the Department.

1.3   The OCIO Organization

The OCIO's mission and primary objective is to establish and manage a comprehensive information resource management (IRM) program for the DOI. The basic elements of the program include policy, planning, execution, oversight, enterprise service design, development and delivery.

The Chief Information Officer (CIO) authorities are consistent with the Federal Information Technology Acquisition Reform Act (FITARA) and include planning, programming, budgeting and execution across the departmental information technology (IT) portfolio. This includes defining and implementing governance, standards, guidelines, metrics, and processes for ensuring compliance, in addition to the ownership of enterprise data management, geospatial technology, and IT shared services.

The primary authorities for the mission and function of the organization include: Public Law 104-106 Division E – Information Technology Management Reform Act (ITMRA) also known as the "Clinger-Cohen Act of 1996";

The Government Paperwork Elimination Act; The Paperwork Reduction Act; The Federal Records Act (as amended); The Privacy Act; The Intelligence Reform and Terrorism Prevention Act (IRTRA); The E-Government Act (E-GOV); The Federal Information Security Management Act (FISMA); and OMB Memorandum M-0-02, "Information Technology Management Structure and Governance Framework".

It is responsible for coordination with the DOI service providers, which include Interior Business Center (IBC) for Acquisition, Human Resources, and Finance. The office also provides administrative services to OCIO program offices and supports the CIO in administratively promulgating DOI IT policies and directives.

Planning and Performance Management Division (PPMD):

This office is responsible for IRM strategic planning and execution, enterprise architecture, IT capital planning and investment control, portfolio management, IT project management, IRM community workforce planning, IT governance, policy and management. In addition, PPMD oversees internal controls for IT systems, quality assurance, verification and validation, program assessment, audit liaison, and IT performance management, including the preparation of annual assurance statements.

Information and Technology Management Division (ITMD):

This office is responsible for technology innovation, geospatial programs, enterprise data management, solutions architecture and design, information and records management, accessibility and shared service program development and management. This includes commodity IT service brokering and the management of the Departmental IT service catalog.

IT Service Delivery Division (ITSDD):

This office is responsible for Department-wide IT services including telecommunications, customer support, hosting and end user services. This office manages the Department's telecommunications backbone and wide area network, enterprise directory services, and is responsible for the Department-wide cloud-based email and collaboration system that supports over 70,000 end users. 3 Telework

The Telework Enhancement Act of 2010 (Act) was signed into law on December 9, 2010. The passage and signing of this legislation (Public Law 111-292) was a significant milestone in the history of Federal telework. The Act is a key factor in the Federal Government's ability to achieve greater flexibility in managing its workforce through the use of telework.

Specifically, telework: **1**) is a useful strategy to improve Continuity of Operations to help ensure that essential Federal functions continue during emergency situations; **2**) promotes management effectiveness when telework is used to target reductions in management costs and environmental impact and transit costs; and **3**) enhances work-life balance, i.e., telework allows employees to better manage their work and family obligations, retaining a more resilient Federal workforce able to better meet agency goals.

DOI has implemented a telework program which has the participation of the bureaus and offices. OCIO employees who have an 'approved' Telework Agreement in place are teleworking on a core, situational, or emergency basis.

For additional information, see the links below or contact the OCIO Telework Coordinator, Loray Harmon on (202) 219-0598 or email Loray_Harmon@ios.doi.gov.

The hours you telework need to be recorded correctly in QuickTime in the column labeled "TI". The most common telework indicator codes are: **F** – When you work at home on a regular and recurring basis. **I** – When

you work at home on an occasional or in frequent basis. **L**- When you work at home due to inclement weather or as part of a COOP plan.

4   Time and Attendance *(Quicktime)*

The OCIO uses Quicktime (QT), an automated time and attendance (T&A) software, for T&A recording and processing. QT is a web-based application that allows employees to record their time as well as traditional timekeeper data entry. Your role in the system will be established as an employee and/or timekeeper and/or supervisor depending on your job responsibilities. New employees will receive an email with their UserID and password. Password resets are done through the Customer Support Center (CSC), see contact information below.

The timekeepers will send an email notification to the supervisors and employees at the beginning of the pay week requesting the employees to complete and verify their time in QT by close of business on Thursday or Friday. The supervisors have until close of business on the following Tuesday to certify their employees time in Quicktime.

Click on the links below for instructions on **How To Process Time and Attendance in Quicktime** as an employee, timekeeper, and supervisor (certifier).

12.2 Building Security

12.2.1 Security and Building Access at the MIB

There are two entrances to the MIB. The main entrance on C Street is open 24 hours a day, 7 days a week; the E street entrance is open from 6:00 a.m. to 7:30 p.m. on normal government work days. The C and E Street entrances are wheelchair accessible. Employees entering the building must show their badge and place it against the reader. Core business hours are from 6:00 a.m. to 6:00 p.m. on normal government workdays; however, employees assigned to the MIB have 24 hour access. When entering or exiting the building after hours or on weekends, employees must enter the MIB at the C Street entrance and sign in and out, in addition to the normal access procedures described above.

A memorandum identifying contractors and visitors requiring access to the building after hours (after 6:00p) should be submitted via email, fax, or drop it off in room 1320 to the Security Interior Customer Service Office (ICSO) at least 24 hours prior to their arrival, to give the office time to process the information and disseminate it to the appropriate post.

If larger than normal equipment is required to be brought into or out of the loading dock area, the Security ICSO should be notified at least 24 hours in advance for coordination purposes. This can be done by sending an email indicating the estimated size, weight, and intended date/time of pick-up/drop-off, POC and use to *security_services_inbox@ ios.doi.gov*.   All government property (equipment) entering and exiting the building(s), including laptops, is to be accompanied by a property pass issued by the Property Office in OFAS.

12.2.3 Medical Emergency Procedures for the MIB

In the event an individual becomes seriously ill or injured and requires emergency medical assistance, the following steps should be followed:

1. Call **911**
2. **Call the DOI Security Dispatch Center at 202-208-5803**

The second step is vitally important as it ensures DOI Security can meet the arriving emergency medical service personnel and escort them to the incident location. **The Security Dispatch Center will notify the Health Unit nurse so it is not necessary for you to call the Health Unit directly!**

The dial plan on the telephones in the MIB and SIB are programmed so the caller can dial **911 or 9-911** and reach emergency services. DOI Security recommends employees program the DOI Security Dispatch Center telephone number 208-5803 into their desk phone and mobile device for a quick reference.

If the illness or injury is of a less urgent nature and the employee is able to walk to the Health Unit, treatment can be provided during normal business hours – from 8:00 a.m. to 4:00 p.m. during federal workdays.   The Health Unit is located in the North Penthouse of the MIB (elevator and stairwell are located near the 5th wing of the 7th floor).

12.2.4 Emergency Evacuation of the MIB

In the event of an emergency in the MIB, you will be notified by alarm bells, voice annunciated messages, strobe lights, and vibrating pagers (for hearing impaired individuals) to immediately evacuate the building.

Every employee should know at least two emergency evacuation routes from their office area and be aware of the evacuation routes for other areas in the MIB. Evacuation maps can be found in the Occupant Emergency Employee Guide and are also posted in the display cases, on each floor, near each bank of elevators. The Evacuation Support Team includes the many volunteers who serve as Wing Wardens (identified by orange hats), Sector Wardens (identified by yellow hats), and Buddies for people with disabilities. During emergencies, it is important that you follow the directions of these team members. They have been trained for emergency incidents and will provide significant benefit during an emergency.   For additional information, visit the Employee Emergency Information site.

The OCIO Wing Wardens and their designated areas at the MIB are as follows:

13.1.1 Parking Areas
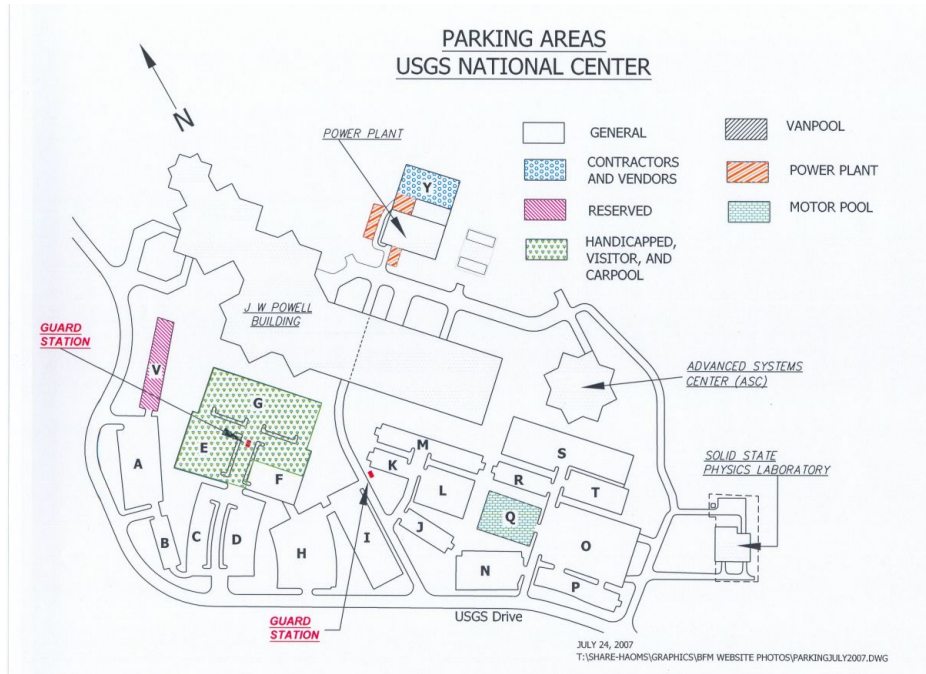

13.1.2 Parking Permits

- *Who must have a parking permit?*
  Anyone wishing to park on USGS property at the J.W. Building must have a parking permit displayed in the window of their vehicle.

- *How to obtain a parking permit.*
  PARKING PERMIT APPLICATION
  Parking permit applications will need to be filled out manually at the Facilities Help Desk. The Help Desk is located in the J.W. Powell building in room 1C100. They can be reached via phone at (703) 648-7208. **One-day visitor parking permits are issued at the Guard's Station located between lots E and F.**

- *What kind of parking permit do I need?*
  Most employees will need only a general parking decal which permits them to park in any of the areas designated as "General" parking. Employees with a current and valid parking placard for V, G, Y, or X Lots do not require an additional General parking permit.

- *Special parking lot access.*
  A special parking placard is needed to gain access into parking areas at the National Center other than General parking. For access to parking areas G, Y and X, please contact Matilde Moss in Facilities Management at (703) 648-7524. For information regarding access to the V parking area, contact Janet Arneson in the Director's Office at (703) 648-7411.

  Please Note: With a valid parking placard from one of the special parking lots, you may park in General parking as needed; however, you may not park in any of the special lots other than the one to which you have been given authorization.

13.1.3 Handicapped Parking

Designated handicapped parking spaces are located in Lot G. When presented with appropriate documentation, Facilities Management will issue a parking decal for Lot G.

13.1.5 Perimeter and Parking Lot Barricades

The National Center is open to the public and receives numerous visitors every day. The purpose of the perimeter barricades such as chains, jersey barriers, or parked security vehicles is to restrict traffic to certain controlled areas in order to determine that a visitor has a bona fide purpose for his/her presence on the campus. The Security Management Office has mobile units constantly patrolling all parking lots.

13.1.6 Commuting Alternatives

To avoid parking congestion and restrictions at the J.W. Building, employees may wish to take advantage of local Fairfax Connector Park and Ride facilities. In addition, employees can take the Silver Line Metro and the building is a short bus or cab ride away.

13.2.4   Medical Emergency Procedures

All National Center Campus emergencies are to be reported by dialing 7222 or 4103 (TTY) DO NOT DIAL 911!

These numbers are used **ONLY** for reporting emergency situations, e.g., fire, explosion, release of hazardous materials, medical emergency, bomb threats, etc. From a safe location, callers should state – their name, location, nature of the emergency or injuries.

WHY DIAL 7222? 7222 simultaneously rings the Guard's Desk, Health Unit, National Center Safety and Health Team, Environmental Management Branch, Security and Facilities which are the six entities that have the greatest capacity for responding to all types of emergencies. The 7222 line is answered by a Guard who will, if necessary, dial 911 and guide the responders to the precise location where help is needed.

Should an occupant dial 911 to report an emergency, the responders will be summoned to the National Center, but critical time will be lost since the responders will have no way to locate the emergency. For additional information about these emergency procedures contact Frank Cashwell at fcashwell@usgs.gov or on 703-648-7554.
